

Candle collection

**Do you have any candles that could
bring light & heat to the Ukraine?**

We are collecting candles of any kind:

used - new - stubs
tealights - bits of wax

Declutter & recycle whilst making a difference

Collection point: St Peter & St Paul's Church, Kedington

Collection closes: Monday 5th May 2025

It is estimated 40% of the Ukraine's power infrastructure has been damaged. Leading to mass blackouts in homes & public places. For many soldiers candles are the only source of light & heat, preventing frostbite. Your used candles are melted down & remade into new candles (unless supplied new) by Swindon Humanitarian Aid Partnership, before being sent to the Ukraine.

Find out more about the mission at www.shapuk.org

Thank you to Fr Chris & St Peter & St Paul's Church for hosting the collection. This project is inspired by an existing two year mission organised by Fr Will of St Mary's Sawston & St Peter's Babraham (where donations are welcome after our village donation point closes). Read about Fr Will by searching 'Reverend Candles' on the BBC website.
